FOR IMMEDIATE RELEASE

The American Geographical Society Awards 2026 AGS Council Fellowship to Ms. Khojasteh Hashemi

Description: The American Geographical Society (AGS) awards Ms. Khojasteh Hashemi, a Ph.D. student at Kent State University, a 2026 AGS Council Fellowship.

[New York City, NY] – [April 16, 2026] — The American Geographical Society (AGS) announced the recipients of the 2026 AGS Council Fellowships to support master’s and doctoral research. The recipients are Ms. Khojasteh Hashemi, a Ph.D. candidate at Kent State University, Mr. Matthew Hielt, a Ph.D. candidate at University of Illinois-Urbana Champaign, Ms. Mahboobe Safaei Mehr, a Ph.D candidate at University of Texas, Austin, and Mr. Monojit Saha, a Ph.D candidate at University of Maryland, College Park. Masters and doctoral students from American universities are eligible to apply for the Fellowships. Established in 2013, each recipient receives a \$2,000 award for their graduate research project. AGS will recognize the four Fellows during its annual Fall Symposium, Geography 2050, to be held November 19-20, 2026 in New York City.

Ms. Hashemi will use the fellowship to fund her research project, *Modeling the Relationship Between Built Environment and E-scooter Ridership at the Street Segment level in Washington D.C.* She wrote, “To address existing data gaps, this study focuses on Washington, D.C., applying machine learning to trip flow at the street segment level to examine how built environment, and safety factors influence e-scooter ridership. The analysis will identify the relative importance of key variables, providing actionable insights for infrastructure design, policy, and data-driven micromobility planning.” She remarked, “I am deeply thankful to the American Geographical Society for supporting my research. I look forward to sharing my findings with urban planners, policymakers, and transportation planners to help promote more sustainable and multimodal transportation systems.”

Dr. Marie Price, President of AGS and Chair of the Selection Committee, remarked, “The Council of the American Geographical Society is pleased to award four research grants to student members of the society. In our effort to support the next generation of scholars and practitioners we began the Council Fellowships ten years ago. We have awarded 49 Council Fellowships since 2014. Our intent is to expand the program in coming years to fund more awards through partnering with the AGS Champions program. Congratulations to this year’s winners.”

The AGS is a 21st-century learning society dedicated to the advancement of geographic thinking, knowledge, and understanding across business, government, academe, social sectors, and most importantly with teachers and students. The vision of AGS is to be the foremost champion of geography for the benefit of society. The mission of AGS is to convene a diverse global community of innovators, thinkers, and practitioners; create and curate geographical knowledge, learning, and exploration; and advance geographic knowledge and technologies to address society’s challenges and opportunities. Established in 1851, AGS is the oldest professional geographical organization in the United States and is recognized worldwide as a pioneer in geographical research and education. AGS seeks to engage the American public, from its youngest to its oldest citizens, with new and amazing ways to understand and characterize our changing world. The Society maintains its headquarters in New York City.
